

Amendments to the Claims

This listing of the claims will replace all prior versions and listing of claims in this application.

Listing of Claims

1. (Previously presented) An uncoated tablet comprising:
 - from 20 to 45% by weight enrofloxacin;
 - from 18 to 35% by weight of lactose;
 - from 5 to 10% by weight microcrystalline cellulose; and,
 - from 5 to 20% by weight of meat flavor.
2. (Withdrawn) Process for producing tablets according to Claim 1, in which
 - a. Enrofloxacin, lactose, where appropriate meat flavour and also, where appropriate, additional adjuvants are mixed,
 - b. The mixture is granulated in the added presence of water or aqueous solutions of additional adjuvants,
 - c. This mixture is dried,
 - d. After drying, microcrystalline cellulose and, where appropriate, additional adjuvants and also meat flavour, provided this was not added in step (a), are admixed,
 - e. And the mixture is subsequently pressed into tablets.
3. (Previously presented) An uncoated tablet consisting of:
 - a. from about 20 to about 45% by weight enrofloxacin;
 - b. from about 18 to about 35% by weight lactose;
 - c. from about 5 to about 10% by weight microcrystalline cellulose;
 - d. from about 10 to about 40% by weight of maize starch;
 - e. from about 1.5 to about 4% by weight polyvinyl pyrrolidone;
 - f. from about 0.05 to about 0.3% by weight colloidal silicon dioxide;
 - g. from about 0.4 to about 1% by weight magnesium stearate; and,
 - h. from about 5 to about 20% by weight of meat flavor.
